Environment

Environmental pollution
- depletion of the ozone layer
- oil spills
- greenhouse effect
- toxic waste
- deforestation
- overpopulation
- global warming
- contamination of water
- acid rain

organic food
- more expensive than conventionally-grown food
- environmentally friendly way to grow crops
- considered to be healthier than conventionally -grown food
- no fertilisers
- no pesticides
- safer than non-organic
- no chemicals

3Rs
- **R**educe
- **R**euse
- **R**ecycle

Environmental protection
- separate and recycle
- reuse paper
- use renewable items
- protect existing forest
- use cars less --> carpool
- reduce carbon footprint
- don't waste water
- have a shower instead of a bath
- protect the endangered species

ECO
- eco-tourism
- eco-bags
- eco-transport
- eco-house
- ecoo-activism
- eco-products

sources of energy
- fossil fuels
  - coal
  - gas
  - oil
- renewable energy
  - water power
  - wind power, wind turbins
  - solar power
  - nuclear power
